

# SHOW OFFERS

## PRINTWEAR & PROMOTION 2024

To coincide with the **Printwear & Promotion LIVE!**, we have slashed prices on our equipment range! This means some of the lowest prices are now available on desktop and large format sublimation systems, our Craft Express Laser Engraver, Craft Express DTF Printer, Heat Presses and more besides.

With such a huge range of equipment and accessories, we feel that offering set packages can be limiting and mean that you miss out on savings. With this in mind, we now simply show our most competitive pricing on all of our equipment - with the items shown below specially discounted for the show period. This means you can **Mix and Match** to build the kit that suits you!

These prices are available whilst stocks last and are valid for the duration of the show period.
